DETAILED ACTION

1. Claims 17-30 are pending. Claim 17 has been amended in the response filed 10/21/09 entered as Request for Continued Examination (RCE) with Amendment, New or Additional Drawings and a Request for Extension of Time.
2. The Drawings have been considered and entered.
3. The 35 USC 112, First Paragraph Rejection for claims 17-30 has been overcome by Applicants' amendment and is hereby withdrawn.
4. The 35 USC 112, Second Paragraph Rejections from the Office Action mailed 4/21/09 have been overcome by Applicants' amendment and are hereby withdrawn. However, there are still remaining 35 USC 112, Second Paragraph Rejections as set forth here below.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/21/09 has been entered.

Claim Objections

Claims 18-30 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s)

in proper dependent form, or rewrite the claim(s) in independent form. Rule 1.75 (c) provides that "[0]ne or more claims may be presented in dependent form, referring back to and further limiting another claim or claims in the same application. See also MPEP 608.01 (n), under the heading "III Infringement Test", second paragraph, wherein it states, "[t]he test for a proper dependent claim under the fourth paragraph of 35 USC 112 is whether the dependent claim includes every limitation of the claim from which it depends". See MPEP 608.01 (n).

Applicants' are respectfully requested to see claim 2 in reference (US 5,897,260) Zingher for this objection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 17 recites "a first computer" which leads a person to believe there is a second computer which is missing in the claim limitations. Also, nothing in the claim limitations happens with "a first computer having a computer-implemented database ...". It is suggested that the "a first computer" be changed to "a computer". Claim 17 also recites "a print processing facility, ..., wherein ..., compares the event data to one or more predefined event rules that determine one of that the printed product should be produced and that the printed product should not be produced

and, in response to ..., automatically generates a print order ..." which is vague, indefinite, and confusing as written.

The dependent claims 18-30 are rejected because of their dependency on a rejected base claim.

"An essential purpose of patent examination is to fashion claims that are precise, clear, correct, and unambiguous. Only in this way can uncertainties of claim scope be removed ...". *In re Zletz* 13 USPQ2d 1320 (Fed. Cir. 1989).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Greulich et al. disclosed the creation and ordering of custom business forms and transferring the order to a print facility for printing.

As a preliminary matter, it is noted that the Attorney is not listed in the Patent Office system. It is suggested that the Attorney file a Power of Attorney.

Response to Arguments

Applicant's arguments with respect to claims 17-30 have been considered but are moot in view of the new ground(s) of rejection.

USPTO personnel are to give claims their broadest reasonable interpretation in light of the supporting disclosure. *In re Morris*, 127 F.3d 1048, 1054-55, 44 USPQ2d

1023, 1027-28 (Fed. Cir. 1997). Limitations appearing in the specification but not recited in the claim should not be read into the claim. *E-Pass Techs., Inc. v. 3Com Corp.*, 343 F.3d 1364, 1369, 67 USPQ2d 1947, 1950 (Fed. Cir. 2003) (claims must be interpreted "in view of the specification" without importing limitations from the specification into the claims unnecessarily). In *re Prater*, 415 F.2d 1393, 1404-05, 162 USPQ 541, 550- 551 (CCPA 1969). See also In *re Zletz*, 893 F.2d 319, 321-22, 13 USPQ2d 1320, 1322 (Fed. Cir. 1989) ("During patent examination the pending claims must be interpreted as broadly as their terms reasonably allow.... The reason is simply that during patent prosecution when claims can be amended, ambiguities should be recognized, scope and breadth of language explored, and clarification imposed.... An essential purpose of patent examination is to fashion claims that are precise, clear, correct, and unambiguous. Only in this way can uncertainties of claim scope be removed, as much as possible, during the administrative process.").

When the Objections and Rejections are overcome and if there are not any new references found to reject the claims the application will be allowed.
